FINAL PAYMENT IS DUE UPON SCHEDULING YOUR INSTALLATION

PROJECT INFORMATION

TO HELP US UNDERSTAND THE SCOPE OF YOUR PROJECT, PLEASE FILL OUT THE FOLLOWING PAGES TO THE BEST OF YOUR ABILITY. IF YOU ARE UNSURE OF SOME ITEMS, THAT'S OKAY. THIS IS JUST A STARTING POINT THAT WILL HELP OUR DESIGNERS IDENTIFY WHAT THEY CAN HELP YOU WITH.

Name: _____ Email: _____

Phone #1: _____ Phone #2: _____

Mailing Address: _____

Project Address (if different from mailing): _____

Preferred contact method: _____

Please describe your project:

- ☐ Building a new home
- ☐ Remodeling or renovating an existing space
- ☐ Building an addition onto a home

Are you working with a builder or remodeler? If yes, which one?

Have you worked with one of our designers on a previous project? If yes, which one?

Have you received estimates from other businesses?

What elements are you considering updating/changing?

- ☐ Cabinets
- ☐ Appliances
- ☐ Cabinet Hardware
- ☐ Countertops
- ☐ Sink/Plumbing
- ☐ Other: _____

What do you hope to spend?

When do you plan to begin?

- ☐ Now
- ☐ Within 3 Months
- ☐ 3-6 Months
- ☐ 6 Months or More

What are you planning?

- ☐ Kitchen
- ☐ Bath: Main, Master, or Other
- ☐ Bar
- ☐ Other: _____

PROJECT INFORMATION (CONT.)

What cabinet material?

- ☐ Wood
- ☐ Paint
- ☐ Laminated

Cabinet Style:

Frame

- ☐ Traditional style built in America. Resembles a flat picture frame attached to a door front. Can be made partial or full overlay. (Overlay is the amount of face frame that is covered by the door/drawer.)

Frameless

- ☐ A type of full-overlay. It is a European way of manufacturing cabinets that has become popular in America due to its sleek and simple lines. Style ranges from a modern to traditional look while allowing full-access to cabinet interior along with larger drawer-box capacities. More fillers are recommended in the design, to assure minimum clearance is met for door/drawer openings.

Inset

- ☐ Doors and drawers fit flush inside the cabinet face-frame openings. Gives a full view of the cabinet frame, with only minimal spacing or gaps between cabinet components. (Note- Additional drawer/door adjustments will be needed throughout cabinet life to maintain functionality.)

Countertops:

☐ Natural Stone

Granite, marble, quartzite- Durable with plenty of character, needs to be resealed yearly (unless a multiple year sealant is applied during fabrication). Unique grains, colors, and customizable finishes. Earth-Made. Drop-in or undermount sink applications. (NOTE- Quarried natural stone by nature has conditions that cannot be controlled, i.e. color and shade variations, veining, fissures, irregular markings, and voids. All of the variations and characteristics are common and present to some degree.)

☐ Quartz

Consistent in color and pattern. Stain, heat and scratch resistant. No sealing required. Man-made designs using 93% natural quartz. Non-porous. Drop-in or undermount sink applications.

☐ Solid Surface

Many color options and patterns. A renewable surface with easy stain and scratch removal. Drop-in, under-mount or integral sink applications.

☐ Cultured Marble

Man-made marble with the look of real marble, but at a fraction of the cost. Created with natural marble and minerals combined with polymer resins. Can be used for vanity tops, shower bases and walls, tub decks, window sills, and more.

☐ Wood Butcher Block

Offers the natural beauty and warmth of wood. Softer than tile, stone and metal (will scratch). Comes in oil finish or clear finish and needs periodic resealing. Not warranted against water damage, cracking or splitting.

☐ Laminate

Easy to clean; consistent colors and patterns. Drop-in or integral sink applications.

☐ Other: _____

To get us started we'll need some basic measurements of your space. We will verify these measurements before placing your order.

Step 1: Draw an outline of the room where cabinets will be installed.

Step 2: Draw two short lines to represent the outside edge of the trim of each window and door.

Step 3: Start from the left and work clockwise around the room labeling segments with a letter (A-T).

Step 4: Measure each segment (A-T) with a tape measure and record it in the spaces below.

Step 5: Draw boxes to represent new cabinets, appliances, & plumbing.

No need for your floorplan to be to scale. The grid is just to help you draw straight lines.

A = _____ inches	F = _____ inches	K = _____ inches	P = _____ inches	Ceiling Height = _____ inches If applicable record the following: Soffit/Bulkhead Height (from floor) = _____ inches Dropped Beam Height (from floor) = _____ inches
B = _____ inches	G = _____ inches	L = _____ inches	Q = _____ inches	
C = _____ inches	H = _____ inches	M = _____ inches	R = _____ inches	
D = _____ inches	I = _____ inches	N = _____ inches	S = _____ inches	
E = _____ inches	J = _____ inches	O = _____ inches	T = _____ inches
